# Why ESET Cybersecurity Awareness Training?

## SECURITY

Don't be a statistic.

56%

of healthcare breaches are caused internally.

22%

of users in any industry click at least one phishing link per year.

76%

of businesses reported being a victim of a phishing attack in the last year.

\$1.6  
million

on average is spent on resolving a successful phishing attack.

## COMPLIANCE

Be proactive.

Part of a good corporate compliance program, which can aid in maintaining a healthy reputation and reducing costs related to litigation or disruptions to business.

International compliance standards such as HIPAA, PCI, SOX or GDPR may require or strongly encourage training for all employees.

Insurance companies are increasingly recommending employee training programs in managing cyber risk.

# The ESET difference

## **Gamified learning for increased engagement and retention**

ESET's solution is the only training on the market to employ true gamification.

Behavioral science has proven that gamification engages at an emotional level and changes behavior.

## **Developed with security expertise**

ESET's simple 5-module approach, broken into 18 sub-modules, focuses on the main security messages that will have the greatest impact on employee behavior.

Modules are updated regularly for the most up-to-date advice.

## **Focused and simple approach**

ESET has decades of experience with in-house researchers combined with in-house training experience.
