Intel®/AMD® x86/x64

Visit eset.com for information on the support of older Kerio Control and Kerio Connect versions.

---

Antivirus and Antispyware
Features antivirus and antispyware plug-ins for Kerio Connect (SMTP and POP3 protocols) and Kerio Control (HTTP and FTP protocols)
A single scanning engine services all scanning requests from Kerio Connect / Control
Provides full-fledged server-as-client protection
Powered by the advanced ThreatSense® technology combining speed, accuracy and minimal system impact

Remote Administration
Provides full support for ESET Remote Administrator
Remote installation, automated integration with Kerio Connect / Control

Windows Installations Dual Support
Requires only one instance of ESET security solution if both Kerio Connect and Kerio Control are installed on the server

Smooth Operation
Allows you to customize settings via Kerio administration console
Automatically cleans or deletes any infected objects (attachments)
Downloads updates from the internet or from the local mirror server
Uses the same update packages as other ESET security solutions
