

 **PROTECT COMPLETE**

The background of the advertisement features a teal gradient with a network of glowing lines and several clusters of reflective, metallic spheres of varying sizes. A large, curved, metallic structure is visible in the lower right corner, and a thin black line curves across the bottom of the frame.

Cloud applications protection backed by
multilayered endpoint protection

eset PROTECT COMPLETE

- Cloud-based Console
- Endpoint Protection Platform
- Cloud Sandbox
- Full Disk Encryption
- Cloud Applications Protection
- Mail Security

Add an extra layer of protection to your Microsoft 365 cloud email and OneDrive or mail servers. Protect your company computers, laptops and mobiles with security products all managed via a cloud-based management console. The solution includes cloud sandboxing technology, preventing zero-day threats, and full disk encryption capability for enhanced data protection.

- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Helps comply with data regulation thanks to full disk encryption capabilities on Windows and macOS.
- Protection against disruption caused by email-based attacks and malware in Microsoft 365 cloud applications.
- Protection of your mail servers from malware, spam or phishing attacks.
- Easily accessible ESET PROTECT console improves TCO of security management.
- Single-pane-of-glass remote management for visibility to threats, users and quarantined items.
- Company endpoints and mobiles are protected via advanced multilayered technology, including file server security, now with secure banking protection.

IMPROVED RANSOMWARE PROTECTION AND ZERO-DAY ATTACKS SOLUTION WITH CLOUD SANDBOXING

ESET Dynamic Threat Defense provides proactive protection against zero-day threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behavior using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Behavior-based Detection
- Machine Learning
- Zero-day Threats Detection

MULTILAYERED ENDPOINT PROTECTION TECHNOLOGY

ESET Endpoint Security provides multiple layers of protection and can detect malware before, during, and after execution. Machine learning, advanced behavioral analytics, big data and human expertise work in dynamic equilibrium to balance performance, detection and false positives.

- Protect against ransomware
- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

ADVANCED PREVENTIVE PROTECTION FOR EMAIL AND CLOUD STORAGE

ESET Cloud Office Security provides advanced preventive protection for Microsoft 365 applications. The combination of spam filtering, anti-malware scanning and anti-phishing helps to protect your company communication and cloud storage. Our easy-to-use cloud console gives you an overview of quarantined items and immediately notifies you when detection occurs.

- An additional layer of protection of Microsoft Office 365 cloud email and storage.
- Visibility in detections and quarantine via anytime-accessible console.
- Automatic protection of new user mailboxes.
- Immediate notification when detection of malware occurs.

ESET Mail Security provides an additional layer of defense on server level to prevent spam and malware from ever reaching users' mailboxes.

POWERFUL ENCRYPTION MANAGED NATIVELY BY ESET PROTECT

ESET Full Disk Encryption is a feature native to the ESET PROTECT management console. It allows one-click deployment and encryption of data on connected Windows and Mac endpoints. ESET Full Disk Encryption significantly increases your organization's data security and helps you comply with data protection regulations.

- Manage encryption on Windows and macOS machines
- Encrypt system disks, partitions or entire drives
- Deploy, activate and encrypt devices in a single action

CLOUD-BASED REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and gives you network visibility without the need to buy or maintain additional hardware, reducing the total cost of ownership.

- Setup and deployment within minutes
- No need for additional hardware or software
- Single point of network security management
- Accessible safely via web browser from anywhere

About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services, delivering instant, comprehensive protection against evolving cybersecurity threats for businesses and consumers worldwide.

ESET is privately owned. With no debts and no loans, we have the freedom to do what needs to be done for the ultimate protection of all our customers.

ESET AWARDS

ESET was awarded APPROVED status for its endpoint protection solution in the AV-Comparatives Business Security Test 2020.

ESET is compliant with ISO/IEC 27001:2013, an internationally recognized security standard in implementing and managing information security.

ESET achieved the highest final score in the latest VBSpam test, getting outstanding malware and phishing catch rates.
