Digital Security
Progress. Protected.

Powerful protection, small business savvy

WHEN TECHNOLOGY ENABLES PROGRESS, ESET® IS HERE TO PROTECT IT.

ESET is a global digital security company whose award-winning technology secures over one billion internet users and hundreds of thousands of businesses.

We offer state-of-the-art privacy, identity, device and smart home protection. Our technology marries artificial intelligence, human expertise, multilayered security technology, and live cloud protection for proactive defense against modern cyber threats. It is prevention-forward, easy to manage and light on resources—all to enhance business continuity and efficiency.

ESET houses 13 Research & Development centers worldwide and brings over 30 years of technology-driven innovation to the digital security industry. We operate in 195 countries and offer strong local support.

In a world where technology enables progress, choose ESET for your small business.

ESET HOME: ONE PLATFORM, COMPLETE SECURITY MANAGEMENT

ESET HOME is a user-friendly platform that allows you to effortlessly activate and renew your subscription, add and protect new devices, and more. Use it to monitor your security status, or download and update your solution. Enable powerful functionalities like Safe Server, VPN security, and Password Manager. ESET HOME is available via web portal or mobile application.

FEATURES & BENEFITS:
What can you do with the ESET HOME platform?

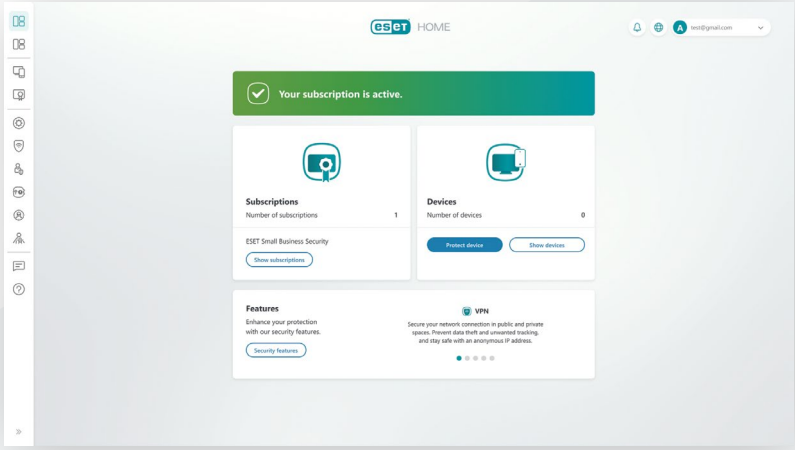
Review your security status
Receive detailed information about the security of all devices connected to your account—issues, updates, reports and more.

Download, update and renew
Use your account to download protection that is automatically activated and easy to navigate. Monitor, customize, and renew your subscription as needed.

Stay secure with Anti-Theft
Protect your device in case of loss or theft. The Anti-Theft functionality allows you to easily lock, track and locate devices, preventing unwanted access to your data and safeguarding your privacy.

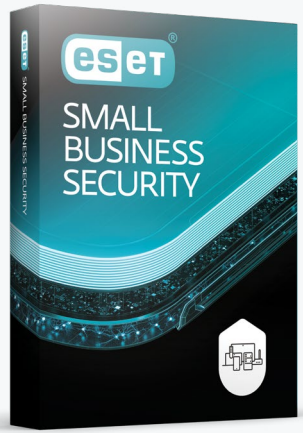
Benefit from Password Manager, Safe Server, VPN protection and much more
Use ESET HOME to enable powerful security features. Password Manager helps you safely store and organize passwords. Safe Server protects the valuable data on your company servers, and the VPN secures your connection in public and private spaces. With ESET HOME, there's much to discover.

All this and more—visit www.eset.com for more information.



ESET SMALL BUSINESS SECURITY

ESET Small Business Security offers seamless and easy-to-use protection for the small business. Use it to safeguard online transactions, lock and locate devices, manage passwords, and shield servers. Encrypt sensitive data, and avoid phishing scams. Stay secure and anonymous with Anti-Theft, Safe Browsing, and unlimited VPN security. This solution protects both work and personal devices. It is reliable, cost-effective, and light on resources.



KEY FEATURES

How do you benefit?

Safe Banking – This functionality offers automatic protection when banking and completing transactions online. Communication between the keyboard and browser is also encrypted to protect against keyloggers.

Safe Browsing – Safeguard your company's online activities with a secured browser mode. This functionality offers an additional layer of browsing protection, defending against malware, keylogging and other types of digital threats. It is automatically activated for all compatible browsers.

Browser Privacy & Security – A browser extension for elevated security and privacy. Easily distinguish between safe and unsafe search results. Stay protected from phishing websites and other threats. Clear browser data on demand or automatically, reducing digital clutter and optimizing browser efficiency. Use the unique Metadata Cleanup to remove metadata from images uploaded to your browser, or Website Settings Review to effortlessly review and manage website permissions.

Anti-Theft – Optimize your device protection and take action in case it gets lost or stolen. Initiate automatic monitoring of a lost or stolen mobile computer when it comes online, allowing you to view its location and create a custom message for display on its screen. Access the device's camera to observe its surroundings and easily collect and upload screenshots, saved directly to the ESET HOME interface—all to improve your chances at retrieval.

Anti-Phishing – Safeguard your privacy and your assets. Anti-Phishing protects you from scams and fake websites attempting to access sensitive information or feed you fake news.

Ransomware Shield – Ensure that your data stays private and secure. The Ransomware Shield blocks attempts to lock you out of your data in exchange for a ransom payment. It uses advanced behavior-based detection to shield you and your business from malware threats and device damage.

Password Manager – All you need to remember is your master password! Use this functionality to safely store and organize passwords, automatically fill in forms and generate highly encrypted passwords. Secure your browsing history remotely and check if your passwords are at risk. iOS face detection is integrated, and two-factor authentication (2FA) with Google Authenticator can be incorporated.

Safe Server – Servers are the heart of your company's IT infrastructure. This functionality provides essential protection for data passing through all general servers and network file storage servers running on Windows Server operating system. Its multilayered defense shields you from ransomware and botnets. An excellent way to enhance your business continuity.

Secure Data – Boost your privacy and security with powerful encryption of files and removable media. Prevent data theft during USB or laptop loss, and ensure secure collaboration and data sharing.

VPN – Secure your network connection in public and private spaces. The VPN prevents data theft and unwanted tracking and keeps you and your data safe with an anonymous IP address. With unlimited bandwidth, you'll get unlimited access to online content.

This and much more. Includes additional features to secure your digital life and business.

Seamlessly manage and maximize ESET Small Business Security with ESET HOME—the complete security management platform.

Once installed, always protected.
