

 **PROTECT MDR**

The background of the entire page is a vibrant teal color. On the right side, there is a complex 3D graphic featuring a white, curved, layered structure that resembles a modern architectural element or a stylized keyboard. This structure is set against a backdrop of a glowing network of white lines and nodes, with several translucent, spherical bubbles of varying sizes floating around it. The overall aesthetic is clean, futuristic, and tech-oriented.

Airtight protection of your IT environment,
with complete cyber risk management and
world-class ESET expertise on call

eset PROTECT MDR

- Management Console
- Endpoint Protection
- File Server Security
- Advanced Threat Defense
- Full Disk Encryption
- Extended Detection and Response
- Managed Detection & Response
- Premium Support

Organisations now need increased visibility into their computers and networks to ensure that emerging threats, careless behaviour by employees or unwanted applications do not put their profits or reputations at risk. The answer is an Enterprise-grade prevention, detection and response solution, comprising our best protection, products and services, plus our Managed Detection and Response (MDR) and Premium Support services. It allows quick analysis and remediation of any security issue in the network, with the assistance of ESET experts. It incorporates advanced threat detection technology that prevents new, never-before-seen types of threats, and a full-disk encryption capability for enhanced data protection.

- Accelerate detection, containment and remediation of cybersecurity incidents with ESET expertise via the included Managed Detection and Response (MDR) service.
- Get prompt assistance from ESET at any hour of the day or night, including weekends and public holidays.
- Unique behaviour and reputation-based detection that is fully transparent to security teams and gives them real-time feedback gathered from over 100 million endpoints in our LiveGrid.
- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Helps comply with data regulation with full disk encryption capabilities on Windows and macOS.
- Single-pane-of-glass remote management for visibility of threats, users and quarantined items.
- Company endpoints and mobiles protected via advanced multilayered technology, now with brute force attack protection.

PREVENT, REACT, FORESEE

Our MDR service, **ESET Detection & Response Ultimate**, combines the skills of our world-class IT security research teams and incident responders, and the cutting-edge technology of our IT security products. Its responsive, tailored support reduces the risk of any interruption in operational continuity.

- Guaranteed response times
- XDR deployment and optimisation
- Suspicious behaviour investigation
- Digital forensics
- Proactive Threat Hunting and Threat Monitoring

EXPERT HELP RIGHT FROM THE START

ESET Premium Support Advanced provides expert help to set up your ESET IT security products right from their installation. It greatly lowers the number of potential issues down the line, and is available 24/7/365 to address your IT security setup and deployment needs.

- Immediate response, guaranteed by SLA
- HealthCheck service
- Deployment & Upgrade

ADVANCED THREAT DEFENSE WITH CLOUD SANDBOXING TO PREVENT RANSOMWARE

ESET LiveGuard Advanced provides proactive protection against new, never-before-seen threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behavior using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Advanced unpacking & scanning
- Cutting-edge machine learning
- In-depth behavioral analysis
- Cloud sandboxing

ESET'S XDR-ENABLING TOOL

ESET's XDR-enabling solution, **ESET Inspect**, boosts breach prevention with enhanced visibility, threat hunting and incident response capabilities designed to mitigate any discovered threats.

- ESET Inspect analyses vast amounts of data in real-time, so no threat goes undetected.
- Synchronised detection and remediation of threats in multi-platform environments.
- Flexible deployment options, via on-prem or cloud installation, according to your priorities.

MULTILAYERED ENDPOINT PROTECTION INCLUDING FILE SERVER SECURITY

ESET Endpoint Security provides strong malware and exploit prevention and can detect malware before, during and after execution. Now it also features anti-password guessing technology.

ESET Server Security provides lightweight multilayered server protection, to ensure business continuity.

- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

POWERFUL ENCRYPTION MANAGED NATIVELY BY ESET PROTECT

ESET Full Disk Encryption is a feature native to the ESET PROTECT management console. It allows one-click deployment and encryption of data on connected Windows and Mac endpoints. ESET Full Disk Encryption significantly increases your organisation's data security and helps you comply with data protection regulations.

- Manage encryption on Windows and macOS machines
- Encrypt system disks, partitions or entire drives
- Deploy, activate and encrypt devices in a single action

REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based or on-prem multifunctional unified security management platform for ESET business security products across all operating systems. It provides superior network visibility and extended detection and response (XDR) capabilities thanks to sophisticated tools like ESET Inspect.

- Seamless setup and deployment
- Cloud deployment does not require additional hardware or software
- Single point of network security management
- Saves time with automated tasks

About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services to deliver comprehensive, multilayered protection against cybersecurity threats for businesses and consumers worldwide.

ESET has long pioneered machine learning and cloud technologies that prevent, detect and respond to malware. ESET is a privately owned company that promotes scientific research and development worldwide.
