Cyber risk management and visibility into IT environment
Today, organizations need increased visibility into their computers to ensure that emerging threats, careless employee behavior and unwanted applications are not putting company profits and reputation at risk. Enterprise-grade prevention, detection and response solution allow quick analysis and remediation of any security issue in the network, including cloud sandboxing technology that prevents zero-day threats and a full disk encryption capability for enhanced data protection.

- Unique behavior and reputation-based detection that is fully transparent to security teams and gives them real-time feedback gathered from over 100 million endpoints in our LiveGrid.
- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Helps comply with data regulation with full disk encryption capabilities on Windows and macOS.
- Single-pane-of-glass remote management for visibility of threats, users and quarantined items.
- Company endpoints and mobiles protected via advanced multilayered technology, including file server security, now with secure banking protection.

**IMPROVED RANSOMWARE PROTECTION AND ZERO-DAY ATTACKS SOLUTION WITH CLOUD SANDBOXING**

**ESET Dynamic Threat Defense** provides proactive protection against zero-day threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behavior using threat intelligence feeds, ESET’s multiple internal tools for static and dynamic analysis, and reputation data.

- Behavior-based Detection
- Machine Learning
- Zero-day Threats Detection

\[\text{ESET Enterprise Inspector is manageable only via on-premise ESET PROTECT console.}\]
ESET'S HIGHLY CUSTOMIZABLE EDR SOLUTION

ESET Enterprise Inspector is ESET’s endpoint detection and response (EDR) tool. It increases prevention capabilities with enhanced endpoint visibility, threat hunting and incident response features, focusing on identification of anomalous behavior, risk assessment, and further forensic investigation with subsequent response capabilities designed to mitigate any discovered threats.

- Sophisticated EDR tool that analyzes vast amounts of data in real-time, so no threat goes undetected.
- Synchronized detection and remediation of threats in multi-platform environments.
- Most customizable EDR solution on the market.

MULTILAYERED ENDPOINT PROTECTION TECHNOLOGY

ESET Endpoint Security provides multiple layers of protection and can detect malware before, during, and after execution. Machine learning, advanced behavioral analytics, big data and human expertise work in dynamic equilibrium to balance performance, detection and false positives.

- Protect against ransomware
- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

POWERFUL ENCRYPTION MANAGED NATIVELY BY ESET PROTECT

ESET Full Disk Encryption is a feature native to the ESET PROTECT management console. It allows one-click deployment and encryption of data on connected Windows and Mac endpoints. ESET Full Disk Encryption significantly increases your organization’s data security and helps you comply with data protection regulations.

- Manage encryption on Windows and macOS machines
- Encrypt system disks, partitions or entire drives
- Deploy, activate and encrypt devices in a single action

CLOUD-BASED REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and gives you network visibility without the need to buy or maintain additional hardware, reducing the total cost of ownership.

- Setup and deployment within minutes
- No need for additional hardware or software
- Single point of network security management
- Accessible safely via web browser from anywhere
About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services, delivering instant, comprehensive protection against evolving cybersecurity threats for businesses and consumers worldwide.

ESET is privately owned. With no debts and no loans, we have the freedom to do what needs to be done for the ultimate protection of all our customers.

Canon Marketing Japan Group

protected by ESET since 2016 more than 9,000 endpoints

T

ISP security partner since 2008 2 million customer base

ESET AWARDS

ESET was awarded APPROVED status for its endpoint protection solution in the AV-Comparatives Business Security Test 2020.

ESET achieves highest score in SE Labs test in Q1 2020.

ESET is compliant with ISO/IEC 27001:2013, an internationally recognized security standard in implementing and managing information security.
