

ESET vs. SentinelOne: Why ESET is the customers' choice

- ✓ ESET has been named a "Top Player" in the new Radicati Advanced Persistent Threat (APT) Protection Quadrant 2022 report, where SentinelOne was not featured at all.
- ✓ ESET is committed to investing in our technology, with 13 research centers worldwide.
- ✓ Third-party tests confirm that ESET surpasses SentinelOne in real-world protection, with low system impact and very low false positives (see details below).
- ✓ Canalys categorized ESET as a leading vendor for Q1 2022 in Endpoint Security.
- ✓ ESET is known for US-based technical support, superb customer service and our commitment to small and medium-sized businesses.

Sentinel One (S1)	ESET
Sporadic participation in third-party tests for operational effectiveness. S1 scored second to last with SE-Labs in 2021, with a 95% legitimate accuracy rating on false positives. S1 has not participated in AV-Comparatives or AV-Test in 3+ years.	ESET scored a 100% legitimate accuracy rating on false positives in 2021 with SE-Labs. https://selabs.uk/reports/enterprise-endpoint-protection-2021-q1/ ESET scored a 99.4% malware protection rate with 0 false alarms in 2022 with AV-Comparatives. https://www.av-comparatives.org/tests/business-security-test-august-september-2022-factsheet/ ESET received an "outstanding" score in June 2022 with AV-Test https://www.av-test.org/en/antivirus/business-windows-client/windows-10/june-2022/eset-endpoint-security-9.0-222312/
EDR: Only partial visibility that focuses on process, file, network and user events.	ESET offers full visibility into threats and behavioral anomalies. For response and remediation, our EDR solution can block executables, kill processes, isolate endpoints from the network and more.
Missing features: anti-phishing, anti-spam, web content filtering	ESET offers all these features under our ESET PROTECT platform.

What customers have to say about SentinelOne:

"Numerous technical and upgrade issues. Lots of manual updating required. Doesn't always 'catch' the virus files and keep the user from harm"
<https://www.gartner.com/reviews/market/endpoint-protection-platforms/vendor/sentinelone/product/singularity-platform/review/view/577265>

"The platform has a good idea, but executes it poorly. The idea of machine learning is appealing, but when put into practice with SentinelOne, it often results in a plethora of false positives while missing widely used techniques used by malware"
<https://www.gartner.com/reviews/market/endpoint-protection-platforms/vendor/sentinelone/product/singularity-platform/review/view/558376>

Why customers switch to ESET from SentinelOne:

- ✓ Low system demands
- ✓ Great customer service
- ✓ Price and performance
- ✓ Flexible management options

Better technology, more effective protection.

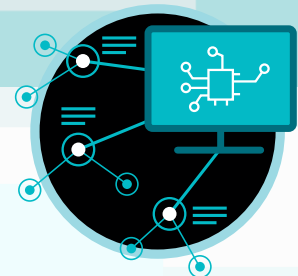

Ransomware shield

Monitors and evaluates applications and processes as they run. Detects and blocks any that trigger reputation warnings or display suspicious behavior, and sends you an alert.

LiveGrid®

Our custom-built global detection system receives data from 110 million sensors worldwide. ESET LiveGrid® gathers signs of emerging threats in order to detect and block them before they strike.

Machine learning

ESET's proprietary engine uses the combined power of neural networks and specially designed algorithms to identify samples as clean, potentially unwanted or malicious.
