Operating Systems:

Supported versions of Kerio products:
Kerio Connect 8.x & newer
Kerio Control 7.4

Processor Architecture:
Intel®/AMD® x86/x64

Visit eset.com for information on the support of older Kerio Control and Kerio Connect versions.

### Antivirus and antispyware
- Features antivirus and antispyware plug-ins for Kerio Connect (SMTP and POP3 protocols) and Kerio Control (HTTP and FTP protocols)
- A single scanning engine services all scanning requests from Kerio Connect/Control
- Provides full-fledged server-as-client protection
- Powered by the advanced ThreatSense® technology combining speed, accuracy and minimal system impact

### Remote administration
- Provides full support for ESET Remote Administrator
- Remote installation, automated integration with Kerio Connect/Control

### Windows installations dual support
- Requires only one instance of ESET security solution if both Kerio Connect and Kerio Control are installed on the server

### Smooth operation
- Allows you to customize settings via Kerio administration console
- Automatically cleans or deletes any infected objects (attachments)
- Downloads updates from the internet or from the local mirror server
- Uses the same update packages as other ESET security solutions
