

SECURITY TECHNOLOGIES AND COMPLIANCE REQUIREMENTS: WHAT YOU NEED AND WHY

Are you involved in achieving or maintaining regulatory compliance? This simple graphic will help you determine:

- Whether your business is affected
- What regulations apply to you
- Which security products address specific regulations

HOW DO I KNOW WHICH REGULATIONS APPLY TO MY COMPANY?

Ask yourself the following to determine which regulations, if any, affect your business:

- PCI — Do you take credit cards?
- GLBA — Do you handle financial transactions for customers?
- HIPAA — Do you process or handle healthcare data?
- SOX — Are you a public company?
- FERPA — Do you handle records for secondary school students (age limits may apply)?
- CIPA — Do you provide internet access to children, for example, via school or a library?
